NEW COLLEGE, SARASOTA, FLORIDA
FURMAN C. ARTHUR — INFORMATION

FOR IMMEDIATE RELEASE

A young West Coast mathematician teaching in Alaska has been named assistant professor of mathematics at New College.

Roger Renne, an assistant professor at the University of Alaska, joins the New College faculty in September.

After earning his bachelor's degree at Reed College in mathematics, Renne received his master's degree at the University of California at Berkeley and completed all requirements for his doctorate with the exception of his thesis.

Attending Berkeley as a National Science Foundation fellow, he held a teaching assistantship for two years, was a lecturer in mathematics at the University of Wyoming, and then joined the faculty at the University of Alaska.
