NEW COLLEGE

FOR IMMEDIATE RELEASE

New College Provost and Dean of the College Dr. John W. Gustad will be chairman of a special meeting in Washington on Monday, February 10 exploring the possibility of setting up a national commission on college teaching.

Dr. Gustad is chairman of the Association for Higher Education Committee on Teaching, which is responsible for the conference.

He said that representatives of many of the learned societies would attend the Monday session to determine ways in which the commission could be set up to focus national attention on what is happening in the field of teaching in higher education.

A preliminary session was held in November and out of this came the suggestion of the national commission, said the dean, which would be formed as a private, non-profit organization in the interests of dealing solely with the problems of college and university teaching.
