

NEW COLLEGE NEWS RELEASE

Mailed May 12, 1966

NEW COLLEGE, SARASOTA, FLORIDA
FURMAN C. ARTHUR — INFORMATION

FOR IMMEDIATE RELEASE

Dr. Peter Buri, chairman of the Division of the Natural Sciences and professor of biology at New College, will attend a meeting of the Commission on Undergraduate Education in the Biological Sciences (CUEBS) in Washington from May 19 to 22.

He is chairman of the panel on Biology in Liberal Education and member of a panel on Undergraduate major curricula of CUEBS, which operates under a grant from the National Science Foundation. The Commission is concerned with studying all aspects of undergraduate teaching in biology and with making recommendations for the revision of curricula and the improvement of teaching materials, facilities and personnel.

The panels on which Dr. Buri serves are two of the eleven action groups currently working on specific projects designed to implement the commission's recommendations.
